Online Athletic Clearance FAQ:

What is my Username?

- Your username is the email address that you registered with.

How do I register for multiple Sports?

- If you know you are going to play multiple sports when registering, it is best to add all sports on the first step where you also select the school year and school. If you are registering for additional sports after completing your initial clearance for the year, you will have to complete the process again. The good news is that if you select the student & parent/guardian info from the dropdown on those respective pages, the information will autofill.

What is the 'Physicals' Page?

- This is where you will submit your EL2 physical form for clearance. The physical form can also be downloaded on the Medical History page should you need to access it later. Our school will accept a physical uploaded to this section without a hard copy submission, but if you wish to turn in the hard copy physical as well please drop it off in the athletic office on campus.

What is 'Your Files'?

- This area is meant to store your files so they can be accessed later in the year or perhaps years following. Files do not carry over year to year automatically. You will be asked to click on the files tab when creating a new clearance to carry over your EL2 (athletic physical), birth certificate, and ECG results each year for each clearance submitted.

Why haven't I been cleared?

- The FPCHS athletic department will review the information you have submitted before clearing you for participation. Once they review your clearance, they will update your status to either 'Cleared' or 'Denied'. You will receive an email when you have been either cleared for participation, or if you have been denied and requested to fix certain documents to re-upload. Please allow up to 48 hours for a staff member to review.

I was "Denied" clearance, now what?

- You should have received an email with the reason for denial. Please update your clearance accordingly then contact your school's athletic department and ask them to review your information again.
 - **Sample Reasons for your profile being 'Denied':**
 - *"Missing FHSAA EL2: Please upload a picture or PDF copy of the completed FHSAA EL2 Physical Form"*
 - *"Wrong EL2: Per FHSAA policy, only the FHSAA EL2 forms are accepted for the sports physical"*
 - *"Missing parent and/or student signature on Page Four (4) of the FHSAA EL2 (Athletic Physical Form. Please sign your original form and re-upload to your Athletic Clearance profile"*
 - *"You are missing the completion certificates for the required three NFHS Videos: 1) Concussions, 2) Heat Related Illness, and 3) Sudden Cardiac Arrest. Please visit NFHSLearn.com to complete the short videos, and upload your completion certificates to your Athletic Clearance portal"*

Participation in high school sports is not without risk. The student-athlete and parent/guardian acknowledge truthful answers to the above questions allows for a trained clinician to assess the individual student-athlete against risk factors associated with sports-related injuries and death. Florida Statute 1006.20 requires a student candidate for an interscholastic athletic team to successfully complete a preparticipation physical evaluation as the first step of injury prevention. This preparticipation physical evaluation shall be completed each year before participating in interscholastic athletic competition or engaging in any practice, tryout, workout, conditioning, or other physical activity, including activities that occur outside of the school year.

We hereby state, to the best of our knowledge, that our answers to the above questions are complete and correct. In addition to the routine physical evaluation required by Florida Statute 1006.20, and FHSAA Bylaw 9.7, we understand and acknowledge that we are hereby advised that the student should undergo a cardiovascular assessment, which may include such diagnostic tests as electrocardiogram (ECG), echocardiogram (ECHO), and/or cardio stress test. The FHSAA Sports Medicine Advisory Committee strongly recommends a medical evaluation with your healthcare provider for risk factors of sudden cardiac arrest which may include the special tests listed above.
