

Don Lugo High School Athletics

Media Coverage and Sideline Access

Don Lugo High School welcomes photographers, videographers, and other media professionals who help highlight our student athletes and athletic programs. To maintain appropriate access to our facilities and comply with Chino Valley Unified School District procedures, individuals requesting media access must follow the requirements below.

Media Access Requirements

Individuals requesting sideline, field, court, track, or other restricted area access for the purpose of photography, videography, live streaming, or other media content creation must be appropriately approved through the Chino Valley Unified School District.

This requirement applies whether the individual is being paid, volunteering services, providing photographs or videos at no cost, or creating content for later distribution or sale.

Parents and spectators may take photographs or videos from regular spectator areas. Sideline or other restricted access for media purposes requires District approval.

The Don Lugo Yearbook program may receive student media access when authorized by the school.

How to Apply

1. Download the District Vendor/Contract Checklist and Fillable Form using the link below.
2. Complete all required information and provide the supporting documentation requested by the District.
3. Submit the completed materials through the appropriate District process for consideration and Board approval.

Important Information

Submission of the paperwork does not automatically authorize access to Don Lugo athletic facilities. Media access will not be granted until the required District approval has been confirmed.

Once approved, please contact Don Lugo Athletics regarding media access for a specific athletic event. Event access remains subject to site procedures, available space, safety considerations, and game management requirements.

For questions regarding the District vendor process, the CVUSD Purchasing Department provides information regarding District purchasing and vendor procedures.
